PROFILE

Frontend Developer specializing in React.js with experience delivering scalable, high-performance web applications. Strong in component architecture, UI optimization, and converting complex requirements into clean, functional interfaces.

WORK EXPERIENCE

Studio7
Frontend Developer (**Freelance**)
Aug 2025 - Nov 2025
- Built a complete ERP system for inventory, clients, invoices, and task tracking.
- Implemented a modular component architecture to ensure scalability and easy future expansion.

AxionPoint Technologies
Aug 2024 - Oct 2024
Frontend Developer (**Contract**)
- Built a React-based dashboard for project management and reporting.
- Integrated REST APIs and created interactive charts for analytics.
- Optimized UI performance and ensured full mobile responsiveness

BrightPixel Agency
Feb 2024 – Jul 2024
Frontend Developer (**Contract**)
- Developed reusable UI components for multiple client sites.
- Refactored old code to improve Lighthouse performance scores.
- Ensured responsive layouts across mobile and desktop.

Stoa School
Sep 2022 – Feb 2023
Frontend Developer (**Freelance**)
- Implemented authentication flows, payment UI, and subscription pages.
- Improved overall UX with smoother navigation and reduced API overhead by adding client-side caching.

NordicWare Solutions
Apr 2022 - Jun 2022
Frontend Developer (**Freelance**)
- Built a supply-chain tracking dashboard using React.js.
- Integrated REST APIs and optimized state management.
- Improved table rendering and performance for large datasets.
